

Healthcare Analyst Intern

Description

CHI's Healthcare Analysts investigate issues, trends, and policies related to health equity and access to care in the U.S. and worldwide. Interns will support the research team and work directly on obtaining, organizing, and analyzing information and data on healthcare access, disparities, and social determinants of health. Additionally, Healthcare Analysts will undertake funding, marketing, and strategy projects, such as social media strategies, identifying funding sources, and planning program initiatives. As a result, you will acquire a robust understanding of the healthcare ecosystem and strong market research skills while gaining the valuable, real-world experience often required to compete for today's and tomorrow's top jobs. Additionally, you'll become a valuable team member in an organization that is one of the world's leading healthcare research organizations.

Benefits of Internship

- Network and interact with leading healthcare executives, professionals, innovators, researchers, entrepreneurs, policy-makers, and scientists.
- Acquire real-world business experience to augment and reinforce concepts learned in the classroom.
- Participate in professional development seminars designed specifically for interns.
- Opportunity to meet with a high-level (Ph.D., M.D., J.D., or M.B.A.) industry leader on the CHI's board throughout the internship period.
- Receive LinkedIn, networking, and résumé assistance.
- Receive training on various topics such as web development and grant writing.
- Work with a team of interdisciplinary experts committed to making healthcare more equitable for everyone.

About Center for Healthcare Innovation

Join one of the world's leading non-profit healthcare research and education institutes. The Center for Healthcare Innovation (CHI) is an independent, non-profit research and educational institute dedicated to making healthcare equitable for all patients. Our mission is to bring together experts and ideas from all over the world to improve healthcare for everyone, regardless of socioeconomic status, gender, race, ethnicity, or other social determinants.

Center for
Healthcare
Innovation
